Radiator Flux Powder

Product

CA Radiator flux powder is a concentrated flux designed for dilution.

Applications

Suitable for all copper and brass alloys along with mild steel. Unsuitable for Aluminium and Stainless steels.

Form

This product is supplied in a 12kg pail and is diluted to 36 Litres. Radiator flux powder can also be diluted or made more concentrated on the operations requirements.

Use

Can be used with all Lead and Lead Free older alloys. It is unsuitable for Brazing Alloys.

Cleaning

After soldering post solder residues should be washed off with soapy water. Failure to clean off residues will result in greening of assembly.
